To Whom it May Concern:

I, Anna Davies, am writing to recommend Ms. Dhiksha Sajnani for a position at your school teaching art.

I have known Dhiksha for the past three months as a student teacher being mentored at NIST International school. I have worked alongside her as an Elementary Art teacher. During her time with us I was able to observe her having the attributes of a successful and committed teacher.

Dhiksha has a warm, confident and approachable manner that students quickly recognise and appreciate. She is able to promote a productive and enjoyable atmosphere in the classroom. She has a friendly and accessible teaching style and takes a genuine interest in her students. She builds confidence in students that are less able and shows a sensitivity and awareness to the diversity of her students in her classes.

Dhiksha's positivity and willingness to contribute to collaborative discussions make her an asset to any teaching team. The NIST Art Department is grateful for her ideas and contributions. I have appreciated her thoughtful questions around art education pedagogy. She displays the characteristics of a lifelong learner that will continue to grow and deepen her understanding of the teaching profession.

Please feel free to contact me with any questions or additional information. Thank you.

Sincerely,

Anna Davies

PYP Art Teacher at NIST International School
